Forecast For East Midlands
Issued by Met Office Exeter
at 0400 on Thursday 01 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy and patchy drizzle in the east, brighter further west.

Today:
Dull with low cloud for eastern areas, and a chance of occasional light rain or drizzle, especially across Lincolnshire. Dry and brighter with rather warm bright or sunny spells further west. Feeling cool along the Lincolnshire coast. Maximum temperature 21 deg C (70 deg F).

Tonight:
Cloudy, misty across eastern locations, with perhaps a little light rain and drizzle. Further west dry with some clear spells, but also areas of mist and low cloud forming. Minimum temperature 12 deg C (54 deg F).

Friday:
Generally dry but cloudy through the morning. Then as sunny spells break through so scattered showers will develop, these sometimes heavy and slow moving. Becoming warm. Maximum temperature 25 deg C (77 deg F).

Outlook for Saturday to Monday:
Bright or sunny spells and showers throughout, these often heavy, occasionally thundery, and perhaps merging into longer spells of rain at times. Mist and low cloud may affect coasts. Warm.
